Passion for the White

D.O. RUEDA

CASTILLA Y LEÓN

THE WINERY

- **Vineyards:** 600 ha (1,480 acres) of prime vines in the heart of the D.O. Rueda located on a high plateau of the Duero river.
- **Climate:** Continental - cold winters and short hot summers.
- **Soils:** Stony, poor in organic matter, relatively high in calcium.
- **Oenologist Style:** Fresh, crisp and complex white wine at a state of the art facility. Working with Rueda's native white grape VERDEJO.
- **Production Capacity:** 3+ million litres.

THE EMPIRE OF VERDEJO

NATIVE GRAPE VARIETY
Rueda D.O.

The Verdejo variety gives shape to Rueda's character throughout its centuries of history. Avelino Vegas, father of Fernando Vegas - current Director of the Avelino Vegas winery, kick-started what was a risky project in the closed-up Spain of the 50's: the foundation of a winery in a region where a white grape was the star. This fact provided a scarce prospective of growing in a time when the world's thirst for wine was coloured red. Nevertheless, this visionary understood the market's future shifts and got to turn a small familiar winery into a referent in Spain.
